BACKGROUND:

- Cycle One of the mandatory Continuing Education Program (the “Program”) for License Holders was implemented in November 2003.
- For the purposes of this document, a Cycle is defined as a period of time (not less than one year) during which License Holders are required to obtain continuing education learning hours.
- The requirements for Cycles One, Two, Three, Four, Five, Six, Seven, and Eight of the Program are outlined below but this enforcement process will apply to all Cycles.

**Cycle Two:** Commenced Nov. 1st 2005: Terminated on Oct. 31st 2007. Required points: 30 PRPs for Professional Renewal Points; 40 SDPs for Self-Directed Points.

**Cycle Three:** Commenced Nov. 1st 2007: Terminated on Oct. 31st 2009. In 2007 the RAIC Con Ed System for recording all learning credits was adopted. Required points: 20 Professional Learning Credits (CORE); 80 Self-Directed Learning Credits. Carry Over: Max. 10 – Professional Learning; Max. 20 – Self Directed Learning.

**Cycle Four:** Commenced Nov. 1st 2009: Terminated on June 30th 2012. Required points: 15 – CORE; 55 - Self-Directed. Carry over: Max. 10 - CORE; Max. 20 - Self Directed.

**Cycle Eight:** Commenced July 1st, 2018: Will terminate on June 30th, 2020. Required Learning Hours: 15, Required Self-Directed Learning Hours: 55. Effective March 29, 2019 the learning hours were revised for CORE to 25 and for Self-Directed to 45. Carry Over: Max. 8 for CORE; Max. 8 for Self-Directed.

**CARRY OVER:**

**Carry Over Learning Hours:**

Carry-over learning hours will only be considered at the audit following the June 30th deadline at the end of each two-year cycle. Licensed Holders deficient in mandatory hours for CORE and Self-Directed categories can use the six-month grace period to complete any deficiencies, however, carry over learning hours will not be considered after the audit.

**GRACE PERIOD:**

**Six Months Grace Period:**

- If a License Holder has not complied with Cycle Eight of the Program by June 30th, 2020 (a “Non-Compliant License Holder”), they will have until December 31st, 2020 (the “Grace Period”) to complete any deficiencies required for compliance with this Cycle.
Enforcement Process for Non-compliant License Holders

- The ALBNL will contact Non-Compliant License Holder/s between July and August regarding their non-compliance and will advise of available Professional Learning opportunities; they will also be encouraged to comply prior to December 31st.

ENFORCEMENT PROCESS:

If a License Holder has not complied with the requirements of (i) **Cycle Eight** by December 31st, 2020, or (ii) any other two year Cycle by the end of the Cycle, generally June 30th of the final year Cycle, the following process will be enforced.

1. ALBNL will not renew the license of a Non-Compliant License Holder/s until they are compliant with the Program and with the requirements of this process.
2. Names of Non-Compliant License Holder/s will be forwarded to the Board.
3. Notice will be forwarded to each Non-Compliant License Holder/s advising of their non-compliance and the date when the Board will consider their failure to comply.
4. If a License Holder completes their outstanding Cycle requirements prior to the date, the Board will be advised and their name will be withdrawn and the license will be renewed provided all other requirements for renewal have been satisfied.
5. If a Non-Compliant License Holder has not been renewed, they must return their License Certificate and Seal to the ALBNL until they have complied with the requirements of the Cycle and their License has been reinstated and License Certificate been renewed or reinstated.
6. In the event that a License Holder’s License has not been renewed, that License Holder shall cease all work and assign their work to another License Holder to prevent or minimize any negative impact on a project or project’s progress and their client.

APPLICATION FOR RELIEF:

**Due to Medical, Compassionate, or Family Leave Circumstances:**

- Relief from the requirements of a Cycle may be granted, at the discretion of the ALBNL:
  1. To License Holders on compassionate grounds who are unable to complete the requirements for a Cycle and at the same time are unable to practice; and
  2. To License Holders responsible for personal supervision and direction of the practice of architecture on compassionate grounds who are unable to complete the requirements for a Cycle and at the same time are unable to practice.

A License Holder applying for Relief must provide a written letter addressed to the Board requesting relief from compliance with the requirements of a particular Cycle of the program and include the following with the letter:

1. The reason for non-compliance based upon health, parental or family reasons, or other compassionate grounds.
2. Supporting documentation that may include a doctor’s certificate or letter confirming the existence of a medical condition that would prevent compliance, or an application for family leave or disability benefits.
3. Confirmation of the start date of any disability or incapacity preventing the License Holder from practicing architecture.
4. Confirmation that the License Holder is or was unable to practice during the period of disability or incapacity with supporting documentation including confirmation of Employment Insurance or disability benefits.
5. Confirmation of the length of time that the License Holder will be unable or was unable to practice during the Cycle, where possible, the estimated time that the License Holder will be unable to practice.

6. Where the License Holder is not practicing during a parental leave period, that leave period is considered to be a one year period consistent with the maximum federal government benefit period. The License Holder should confirm with the Board the length of their parental leave.

A License Holder who holds a License Certificate shall:

1. Assign another License Holder as a locum to personally supervise and direct their practice during the period when the architect responsible for the personal supervision and direction of the practice is incapacitated or unable to practice, or to supervise and direct their practice.

2. Notify the Registrar of the name of the locum architect at the time that the ALBNL is notified of the License Holder’s disability or incapacity.

3. File with the Registrar a certificate in which the License Holder certified that they have not engaged, or will not engage, in the practice of architecture in the Province or will not hold or has not held themselves out as engaging in the practice of architecture in the Province from the date of their incapacity or disability.

4. Provide evidence to the Registrar with respect to any Continuing Education requirements of the Cycle that meet the requirements of the Program, prior to the date of disability or incapacity of the License Holder.

5. Provide confirmation of the length of time that the License Holder was, or will be unable to practice during the Cycle and where possible, the estimated time that the License Holder will be unable to practice.

6. Confirm the maximum parental leave period permitted and advise the ALBNL of the period of parental leave to be taken by the License Holder. If the License Holder is not practicing during their parental leave period, the leave period will be considered to be no longer than the maximum federal government parental leave benefit period, currently one year (the “maximum parental leave period”).

If the License Holder is unable to establish the medical or compassionate grounds required for relief from the requirements of a Cycle, the following shall be communicated to the License Holder in writing:

1. The request for relief from the Program requirements for the Cycle has been denied.

2. The License Holder may voluntarily surrender their license until such time that they are able to return to practice.

3. If the License Holder does not voluntarily surrender their license, the License Holder’s license will not be renewed until they have complied with the Program requirements of the Cycle, as the case may be.

Where the License Holder has decided to take, or has decided to extend after written notice to the Board, their parental leave beyond the maximum federal parental leave, the following options shall be communicated to the License Holder in writing:

1. The License Holder must comply with the requirements for the Cycle during which the maximum leave period has expired. Should the License Holder choose to surrender
ALBNL Continuing Education Program (CEP)

Enforcement Process for Non-compliant License Holders

their license during the parental leave, the requirements for License Holders seeking re-application or re-instatement will apply.

2. If the decision to take or extend parental leave beyond the maximum parental leave period is for medical reasons due to the health of the parent or the child, the Board, in its discretion and, with appropriate supporting documentation, may waive the requirement for the License Holder to comply with paragraph 1 above.

   • Where the License Holder provides evidence of their disability or incapacity and the disability or incapacity overlaps license years, and the License Holder has not surrendered their license voluntarily, the Board may, in its discretion, declare that the License Holder is non-compliant and (i) may not renew their license or (ii) may accept an undertaking from the License Holder not to practice, or (iii) may impose terms, conditions or limitations on the License Holder with respect to their practice of architecture.

   • Where the License Holder has completed at least half of the requirements of a Cycle and substantiates their incapacity for the rest of the period of the Cycle, the requirements for the Cycle will be deemed completed by the License Holder.

   • Where the License Holder returns to practice within six months of the end of the Grace Period for the Cycle or within the second year of the Cycle, they must complete at least half of the requirements for that Cycle.

   • Where the License Holder returns to practice in the last six months of a two-year Cycle, they will not be required to comply with the requirements for that Cycle but will be subject to the full requirements for the next Cycle.

   • Any License Holder who surrendered their license or whose license was not renewed due to non-compliance with the Program will be subject to the policy on “ALBNL Con Ed: Continuing Education Credit Requirements for Individuals Applying for, or applying for re-instatement of a license” set out in this document.

Questions related to the Relief Policy should be directed to ALBNL Administrative Director, Lynda Hayward, by email albnl@albnl.com or to the Registrar.

Reporting Learning Hours Retroactively:

New License Holders who are subject to the Program for the first time may report retroactively twelve learning activities within the twelve month period preceding License Holdership. This does not mean that License Holders can carry learning hours forward from one Cycle to the next. This applies only to first time participants in the Program.
Reapplication for License Holdership:
In order to be eligible to re-apply for or to apply for re-instatement of a license, the individual must complete all requirements for the last Cycle during which that individual held a License (refer to Table 1.A and Table 1.B to determine outstanding learning hour requirements) as well as any outstanding requirements for any previous Cycle.

Table 1.A:
- If the individual left a Cycle between July 1st and December 31st (a six month period) of the first year of a two-year Cycle, that individual is not required to complete any requirements for that particular Cycle prior to being eligible to apply or re-apply.
- If an individual left a Cycle between January 1st of the first year of a two-year Cycle and December 31st of the second year (a twelve month period), that individual must complete half of the learning hour requirements for that Cycle prior to being eligible for re-application.
- If an individual left the License Holdership of the Board for any reason between January 1st and June 30th of the second year of a two-year Cycle, that individual is required to complete all of the requirements for that Cycle before being eligible to apply or to re-apply.
- If an individual has completed the Cycle requirements, and their application or re-application has been approved, the License Holder will be required to complete the requirements for the Cycle during which their License Holdership was approved per Table 1.B.

Table 1.B:
- If the individual’s License is renewed between July 1st and December 31st (a six month period) of the first year of a two-year Cycle, that individual must complete the entire Cycle requirements.
- If the individual’s License is reinstated between January 1st of the first year of a two-year Cycle and December 31st of the second year of the Cycle (a twelve Month period), that individual must complete half of the Cycle requirements.
- If the individual’s License is reinstated between January 1st and June 30th (a six month period) of the second year of a two-year Cycle, that individual will not be required to accumulate any continuing education learning hours for the Cycle but will be required to complete the full Cycle requirements for the next Cycle.

Non-License Holder for more than Three Years:
If an individual has not been a License Holder for more than three years and is submitting an application for a License, that individual will be subject to the same continuing education requirements as a new License Holder. The applicant, if reinstated, will not have to complete the requirements for any Cycle that concluded prior to the three-year period. The ALBNL may, however, in its discretion, when considering an application from a former License Holder, direct the applicant to undertake specific activities under the Program in order to ensure that the individual is current in the practice of Architecture in NL.

License Holder Under Suspension:
Refer to the tables 2.A and 2.B below to determine outstanding requirements regarding any additional education requirements as directed by the ALBNL.
Table 2.A:
- If the suspension of a License Holder’s license took effect between July 1st and December 31st (a six month period) of the first year of a two-year Cycle, that License Holder is not required to complete any requirements for that particular Cycle prior to being eligible for reinstatement.
- If the suspension of a License Holder’s license took effect between January 1st and December 31st of the second year (a twelve month period), that License Holder must complete half of the learning hour requirements for the Cycle prior to being eligible for reinstatement.
- If the suspension of a License Holder’s license took effect between January 1st and June 30th of the second year of a two-year Cycle, that License Holder is required to complete all of the requirements for the Cycle before being eligible for reinstatement.
- If the suspended License Holder has completed their outstanding Cycle requirements and has been reinstated as a License Holder and their license has been reinstated, that License Holder will be subject to the continuing education requirements for the Cycle during which reinstatement occurred or the suspension was lifted per Table 2.B.

Table 2.B:
- If the suspension of a License Holder is lifted or their reinstatement occurs July 1st to December 31st (a six month period) of the first year of a two-year Cycle, that License Holder must complete the entire Cycle requirements.
- If the suspension of a License Holder is lifted or their reinstatement occurs between January 1st of the first year of the two-year Cycle and December 31st of the second year of the Cycle (a twelve month period) that License Holder must complete half of the Cycle requirements.
- If the suspension of a License Holder is lifted or their reinstatement occurs between January 1st and June 30th (a six month period) of the second year of a two-year Cycle, that License Holder will not be required to complete the Cycle requirements but will be subject to the full cycle requirements for the next Cycle.

FEES FOR NON-COMPLIANCE

Fee Structure for Continuing Education Program (CEP) Non-compliant License Holders:
Effective October 12, 2017, the ALBNL adopted a fee structure for implementing surcharges to License Holders who are deemed in non-compliance at the end of a Cycle. The fee structure is based on the full license fee (sum of the ALBNL fee and NLAA fee) and is effective on the first day of each new Cycle:
- Immediate fee of 25%;
- After 45 days, additional 25%;
- Subsequent non-compliances (i.e. deemed non-compliant on any cycle after the initial non-compliance cycle) immediately assessed a $500 fine in addition to the previous fees above.
