ALBNL Continuing Education Program (CEP)

CORE TOPICS

CORE topics specify learning areas for each CEP Cycle as approved by the ALBNL.

The content of learning modules promoted as CORE Programs under the ALBNL CEP must fall within one of the CORE topic areas.

All distance learning modules to be considered for CORE learning must include an interactive component.

CORE topics for the current cycle are:

- Practice Management
- Starting Your Own Practice
- Risk Management
- Project Management
- Sustainable Design/Green Architecture
- National Building Code
- LEED Workshops and Accreditations
- Heritage Buildings / Restoration
- Architectural Culture
- Legal Issues affecting Architectural Practice and Construction Industry
- Energy and Environment
