

ALBNL CONTINUING EDUCATION PROGRAM (CEP)

CORE Pre-approved Program Providers

Effective immediately, courses/modules offered by the following organizations are deemed to be pre-approved as CORE learning by the ALBNL CEP:

1. **Education Provider Program (EPP):**
This program is a platform for professional organizations, businesses, and educational providers to liaise with the ALBNL, AANB & NSAA to offer a wide range of reviewed and approved Continuing Education activities to members. The EPP is a system by which one of the three Regulators will review and approve third-party Con Ed opportunities. This system ensures that all Con Ed sessions meet the curriculum and intent of the CE program and provides a level of confidence to members and the public that the quality of these CE sessions will be recognized by their regulator. To obtain a list of Registered Education Providers and Approved Courses, please visit the EPP website: <https://epp.aanb.org/en/approved-providers>.
2. Modules offered by the Royal Architectural Institute of Canada (RAIC) and deemed to be CORE learning by the RAIC.
3. Modules offered by other Provincial Architectural Associations and deemed to be CORE learning in that jurisdiction.
4. Modules offered through the American Institute of Architects (AIA) that are within the streams of Health, Safety and Welfare (HSW) and Sustainable Design (SD). CEP's approved by AIA under these two categories can be reported as CORE or others as approved by the Audit Committee. If the course is approved by AIA but not designated as HSW or SD, please report it as Self-Directed learning. *The ALBNL accepts only AIA courses that are supported by a certificate of completion. Note that an AIA transcript is not considered a legitimate proof of attendance.*
5. Modules offered by the Newfoundland and Labrador Association of Architects (NLAA) and deemed to be CORE Learning by the ALBNL.
